

SJRYC Windward Sheet volume 2016, number 14, Aug 20, 2016

This is our second Windward Sheet of the week, which is unusual. We do this to bring you up to date on the change in JaM Summer Series rankings and to correct an error in the previous issue on the number of laps each section completed Wednesday night. The Spinn boats did three laps of the course, Jammers did two. This was properly reflected in the results page at RegattaNet.

The computer recompiled the JaM Summer Series findings after Wednesday night by adding in the final throw-out, and this change made quite a difference in the race for flags in that section. If you didn't check-back after race day, here's what you would see now: Silver Arrow leads by two points over Carrera, and the next five boats are exactly one point apart from each other, with Little Beauty one point behind Carrera, Fuzzy Logic one point behind Little Beauty, White Knuckles one point behind Fuzzy Logic, and Infinity one point behind White Knuckles.

4 - Silver Arrow
6 - Carrera
7 - Little Beauty
8 - Fuzzy Logic
9 - White Knuckles
10 - Infinity

Over in Spinnaker, the Summer Series is different, with the top six boats spreading out by 15 points, rather than 6 in JaM, although the race for 3rd place in Spinn has three boats just one point apart and the race for 6th place is tied.

6 - Wellenreiter
11 - Distraction
16 - Captain Blood
17 - Silk
18 - Zot
21 - Sea Raider
21 - Imagine

As we head into the last three Summer Series races of the year, many of the flags both sections are simply too close to call, and this is especially true in JaM.

We'll see you out on the water, Jim S.

The Windward Sheet follows the SJRYC race fleet and is published at irregular intervals throughout the season.
